SCIENTIFIC & TECHNICAL RECRUITMENT

Bulletin - November 2017

Well we have the election results and mixed reactions all round, as we face the biggest test of MMP as our chosen vehicle of democratic government. As we wait and see I believe from initial press releases on the subject that the calibre of candidates we source from overseas, when no NZ candidate is found, will still be assessed and approved on the existing criteria. It is at the lower wages end of the market that pain will be felt for our clients, as the pool of semi-skilled staff for manufacturing and production roles shrinks and existing staff fail to meet Visa extension requirements. Right now it's business as usual and a great selection of our many candidates are presented here.

We look forward to your call.
